

# Bar Boulud – New York City

“Trendy, modern atmosphere with incredibly flattering lighting”

**LUMEN AWARD OF MERIT**

This casually elegant duplex restaurant evokes a wine cellar with its barrel vaulted ceiling, warm expressions of oak, and stone floors. On the main floor, all lighting was completely concealed including that for the crushed stone wall held together with woven metalwork. Multiple light sources were bounced off of warm broad palettes to create a soft effect with key and fill components.

**Lighting Design Firm:** Tirschwell & Co., Inc., Matthew Tirschwell, Eleanor MacDonald

**Design Architect:** Design Bureaux, Thomas Schlessler

**Project Owner:** The Dinex Group, Daniel Boulud

**Architect of Record:** Michael Zenreich Architects
